1/10/95

Dear Harold,

Enclosed please find copies of news clippings that you may have some interest in.

It was good to talk to you on the phone and I hope you are both doing well. We had some snowstorm here and they are forecasting another 8 inches this coming Friday.

I was wondering if you can tell me anything about Gus Russo. I had seen him on a TV show and was wondering about him. What is his contribution to assassination research? Also can you tell me if he has written any books or anything else about his background. Can you also furnish me with his address as I'd like to correspond with him.

Is Livingstone's new book out yet? If so can you tell me anything about it's thesis as I do refuse to buy any more books by him.

I may try to come down to visit this March but it may be difficult as my wife is now pregnant with our

third child. I do hope you are both O.K. I wish I lived closer so I could see you more often.

Warmest Regards,

Scott Wilson
